

A photograph of a well-maintained backyard featuring a vibrant green artificial lawn. A winding path made of reddish-brown bricks with white mortar lines leads from the bottom left towards the center. To the left, a portion of a brick house is visible. In the background, several tall palm trees stand against a blue sky with scattered white clouds. A wooden bridge or walkway is visible in the distance, crossing a body of water or a marshy area.

PRO//GREEN®
SYNTHETIC TURF SYSTEMS

Tropical Supreme

Ideal for high-traffic applications, Tropical Supreme features a pristine appearance that can withstand the use of a typical yard. The combination of pile height and face weight makes this a great high-end option that offers superior softness.
